PURPOSE OF THIS DOCUMENT

This chart shows a teacher or reviewer exactly where each 3.11D editing breakout is taught, down to the deck sheet and slide number, and whether the Teacher Script, the Class Slides and the Student Tracking Sheet all carry it.

INTRODUCTION

How to Read the 3.11D Chart

This chart lists every 3.11D breakout, the editing conventions standard, and shows each place it is taught: the cluster, the module, the Standards Slide Deck sheet and slide numbers, and whether it appears in the Teacher Scripts, the Class Slides and the Student Tracking Sheets. A breakout taught more than once has one row for each time it is taught.

HOW THE CHART WAS BUILT

- Each Standards Slide Deck (Editing and Editing Part Two) and its matching Teacher Script was converted to text page by page. Every sheet is ten slides, one breakout per sheet, and each page carries its TEKS code, so slide numbers come straight from the files.
- The Editing set runs one sheet per week (36 sheets), so Sheet 1 is PREPARE Module 1 and Sheet 36 is Cluster 8 Module 4. Editing Part Two sheets carry their own cluster and module labels.
- Student Tracking Sheets were read page by page for the codes they list.
- § marks an entry credited by skill; code not printed: the page teaches or tracks the breakout's skill by its wording in the same cluster and module, in any Standards Slide Deck set (Editing, Editing Part Two, Spelling, Revising, Writing). Slides and scripts need the skill on at least two pages of that week's sheet; a tracking sheet needs it on the page.
- † marks a row where the Editing set uses a different code label than the 3.11D numbering; the row is placed by the TEKS wording (see the notes page).
