Grade 4 InterActivity Writer's Notebook

Cluster 2: Extended Constructed Response: Informational

Cluster 2**13 Hands-On Pages****Framework: TREES**

Passages: *The Energy We Use Everyday* and *Columbus's Arrival*

PURPOSE OF THIS BOOK

Every page is a cut, fold, glue, sort, flip, or spin activity that sends students back to the passage. Students FIND IT, SHOW IT, CHOOSE IT, EXPLAIN IT, and USE IT IN WRITING. Every page names the Grade 4 TEKS it teaches and why it matters, and an answer key at the back is organized by page number.

Name: _____ Class: _____

Supplies

Scissors, glue stick, pencil, gray colored pencil, stapler, one brass fastener, and a composition notebook.

Read the Lines

----- **Dashed line:** cut here. ✂

————— **Solid line:** fold here.

 **Striped tab:** put glue here.

The Evidence Path

Each page moves students along the same path, so the thinking gets harder as the book goes on:

1. **FIND IT:** go back to the passage and locate the detail.
2. **SHOW IT:** represent it by sorting, sequencing, sketching, or labeling.
3. **CHOOSE IT:** decide which evidence is most connected, specific, and important.
4. **EXPLAIN IT:** tell why the evidence belongs.
5. **USE IT IN WRITING:** put the evidence to work in a written response.

Daily Routine (about 15 minutes)

1. Read or reread the passage aloud.
2. Cut and assemble the page, then glue it into the notebook.
3. Complete the thinking on or under the pieces.
4. Share with a partner, pointing to the words in the passage.

For the Teacher

Pages are ordered by TEKS. Each page carries a **TEKS Connection** and **Why It Matters** line and lists its TEKS in the footer. 4.12 is listed only on pages where students compose. Every quoted sentence appears word for word in the passage. The Answer Key at the back is organized by page number.

2. **CHOOSE IT:** Sort each card into the pocket where it belongs.
3. **EXPLAIN IT:** Pick one card and tell a partner why you sorted it that way.

Question: Which sentences tell a good point about renewable resources?

✂ Cut out each pocket. Fold up the bottom on the solid line and glue the sides to make a pocket. Glue the pockets into your notebook.

Shows a Good Point	True but Off Topic

EXPLAIN IT: Card number ____ belongs in its pocket because

TEKS Connection: 4.7C **Why It Matters:** Students return to the source and decide which details truly support an answer, so evidence is chosen on purpose and not just found.

TEKS 4.7C: Use text evidence to support an appropriate response.

Cut-Out Pieces: Good Points Sort

Page 4: Good Points Sort

Shows a Good Point: 1, 2, 3

True but Off Topic: 4, 5, 6

The first three tell good points about renewable energy, and the other three tell true facts about nonrenewable energy.

Page 6: Evidence Vault

Vault 1: "Renewable energy sources are not always available." *Why:* It is connected because it names the problem, it is specific about supply, and it is important for planning.

Vault 2: "For example, solar energy depends on sunlight, and wind energy depends on weather conditions." *Why:* It is connected because it gives clear cases, it is specific about sun and wind, and it is important for daily use.

Vault 3: "This can cause mismanagement of energy resources if people do not plan carefully." *Why:* It is connected because it shows the result, it is specific about planning, and it is important for responsibility.

Page 8: Energy in Order

Correct order: D (Energy Use), B (Renewable Sources), A (Nonrenewable Sources), C (Smart Choices)

Model summary: People use energy each day from renewable resources that can be replaced and nonrenewable resources that cannot, so careful choices matter.

Page 10: Word Flaps

renewable: able to be made again and used more

advantages: good points that help a lot

limitations: weak points or limits to use

nonrenewable: cannot be replaced quickly once used

Sentences and sketches will vary. Look for the word used correctly and a sketch that matches its meaning in the passage.

Page 12: Talk It Out Spinner

Strong answers point to replacement over time, sun and wind uses, weather limits, slow forming underground, steady supply but pollution, and planning with care.

Page 14: Question Detective Case File

1	renewable resources	list	What	WHAT: tell facts
2	renewable energy	give reasons	Why	WHY: give reasons
3	resource differences	compare	How	HOW: tell how

Prompts will vary. Model: Why do renewable resources need careful use? Tell limits with facts from the passage. Students circle the topic, box the action, and triangle the clue word.
