Section I	Overall purpose, cluster architecture, research basis, and interpretation rules
Section II	Master quantitative comparison and cross-text findings
Section III	Per-passage text complexity evidentiary profiles
Section IV	Cross-text implementation guidance and verification record

Report Use

This package is designed for direct placement in the Grade 4 Supplemental Support Lesson Guide of The Writing Academy®, LLC. It documents every supplied passage version separately while also explaining how the Prepare set grows across four stamina levels. Every count in this report is calculated directly from the supplied passage text.

Source Set Overview

The reading selections analyzed in this report

READING SELECTION	VERSIONS PROVIDED	READING VOLUME RANGE (WORDS)
Dream	Low, Medium, High, Very High	263 to 2,111
Serve	Low, Medium, High, Very High	254 to 2,556

Overall Purpose and Cluster Architecture

How the passage set builds knowledge and reading stamina across four modules

The Prepare set gives each reading at four stamina levels, one for every module. The conceptual core stays stable while reading volume, vocabulary load, evidence distance, and synthesis demand increase from the shortest Module 1 reading to the fullest Module 4 reading. Teachers can match the version to a student while keeping the same lesson purpose.

MODULE	STAMINA LEVEL	PRIMARY INSTRUCTIONAL FUNCTION	APPROPRIATE PRODUCT
Module 1	Low Stamina	Establish the shared knowledge framework and locate local evidence.	Brief evidence-based response
Module 2	Medium Stamina	Add subtopics, vocabulary, and evidence from several paragraphs.	Multi-sentence explanation
Module 3	High Stamina	Integrate multiple categories and retrieve evidence across the text.	Extended response with several supports
Module 4	Very High Stamina	Synthesize the full topic and explain historical, civic, or scientific significance.	Whole-text extended explanation

Research Basis and Measurement Protocol

How the evidentiary profile is calculated and interpreted

Each selection is evaluated through quantitative statistics, qualitative dimensions, and reader and task demands rather than one score alone. The planning estimate emphasizes mean sentence length and lexical demand. It does not by itself measure total stamina, quality, content, or task complexity. The same text can be more or less demanding depending on rereading, scaffolds, the required response, and students prior knowledge.

Counting Conventions

- Word counts include student-facing passage language and exclude titles, stamina labels, and report metadata. Contractions, possessives, and hyphenated compounds count as one word, and numerals count as one word.
- Sentence counts use terminal punctuation. Runs of terminal marks and ellipses collapse to one boundary, and decimal points and common abbreviations do not split a sentence.
- Paragraph and narrative-beat counts follow the separated source blocks. Short dialogue, reflection, and list blocks are retained because they affect pacing and retrieval.
- Syllable counts use a pronunciation dictionary (CMUdict) when the word is listed, and a consistent vowel-group heuristic with silent-ending adjustments for names and uncommon terms.
- Flesch-Kincaid grade level uses 0.39 times words per sentence, plus 11.8 times syllables per word, minus 15.59. It is used for triangulation only, not as a grade-placement decision.
- Metric-derived complexity bands: Reader and Stamina Load is Lower below 300 words, Moderate from 300 to 900, and Higher above 900. Lexical Demand is Lower below 8%, Moderate from 8 to 11.5%, and Higher above 11.5% three-or-more-syllable words. Sentence Complexity is Lower below 10 words average, Moderate from 10 to 13, and Higher above 13. Formula Readability is Lower below 5.5, Moderate from 5.5 to 7.0, and Higher above 7.0.

Master Quantitative Comparison

Actual counts computed across all Prepare selections

SELECTION	LEVEL	WORDS	SENT.	PARA.	AVG. SENT.	3+ SYL.	F-K
Dream	Low	263	33	17	8.0	16 (6.1%)	3.6
Dream	Medium	522	66	35	7.9	28 (5.4%)	3.3

SELECTION	LEVEL	WORDS	SENT.	PARA.	AVG. SENT.	3+ SYL.	F-K
Dream	High	1,074	89	58	12.1	131 (12.2%)	7.3
Dream	Very High	2,111	225	171	9.4	210 (9.9%)	5.5
Serve	Low	254	27	17	9.4	40 (15.7%)	7.4
Serve	Medium	540	59	40	9.2	53 (9.8%)	5.6
Serve	High	1,588	177	100	9.0	200 (12.6%)	6.1
Serve	Very High	2,556	282	174	9.1	311 (12.2%)	5.9

What the Numbers Demonstrate

- The Dream sequence grows from 263 to 2,111 words, a 8.03-fold increase in reading volume, and the beat span grows from 17 to 171.
- Three-or-more-syllable density in the Dream set moves from 6.1% at the shortest version to 9.9% at the fullest version.
- The Serve sequence grows from 254 to 2,556 words, a 10.06-fold increase in reading volume, and the beat span grows from 17 to 174.
- Three-or-more-syllable density in the Serve set moves from 15.7% at the shortest version to 12.2% at the fullest version.

Per-Passage Text Complexity Profiles

One evidentiary profile per supplied passage version

Dream - Low Stamina Report

Prepare | Dream / Low

A. Official Passage Profile

- 263 total words; 165 unique word forms
- 33 punctuation-defined sentences; 17 separated paragraphs / narrative beats
- 8.0 words average sentence length; 18 words in the longest conventional sentence
- 3 sentences of 15+ words; 0 of 20+ words; 0 of 25+ words
- 1 syllable: 186 (70.7%); 2 syllables: 61 (23.2%); 3+ syllables: 16 (6.1%)
- Flesch-Kincaid grade level 3.6, corroborating formula only, not a placement decision
- Estimated single-pass reading time 2.2 to 2.6 minutes at 100 to 120 words per minute

B. Metric-Derived Complexity Indicators

Planning indicators derived deterministically from the computed statistics above, using the documented bands in the Research Basis section. They summarize measurable load, not an editorial judgment of quality.

INDICATOR	COMPUTED BASIS	BAND
Reader / Stamina Load	263 words across 17 beats	Lower
Lexical Demand	6.1% of words carry 3+ syllables	Lower
Sentence Complexity	8.0 words average; 3 sentences of 15+ words	Lower
Formula Readability	Flesch-Kincaid 3.6	Lower

C. Word-Level and Vocabulary Evidence

Three-or-More-Syllable
Examples

enormous Everywhere quietly Memorial everyone America Suddenly
imagined neighborhoods becoming another remember

Longer Academic
Vocabulary

Cross-Text Implementation Guidance

Using the stamina staircase in daily instruction

- Use the Low version to establish the shared knowledge framework, then move students up the staircase as their stamina and evidence handling grow.
- Match the assigned writing product to the evidence available in the selected version, using the module framework table above.
- Teach the longer versions across multiple purposeful readings rather than assigning the full text as one unsupported first read.
- Preview the three-or-more-syllable and domain vocabulary listed in each passage profile before the first read.

Verification Record

Every count in this report was produced by a single deterministic generator that reads the supplied passage text directly. The method reproduces the published Grade 3 report counts for words, sentences, paragraphs, and three-or-more-syllable words. No passage text or metric was entered by hand.
